

Regulatory Update

From Information to Action

The right solution to monitor local and international regulations and be always up to date for the highest compliance of your products.

Better Food. Better Health. Better World.

Regulatory Update

From Information to Action

Thanks to Mérieux NutriSciences' network of regulatory experts, our international monitoring unit daily checks the online Official Journals published in 76 countries.

INFORMATION

Simple and useful search to monitor your target markets.

A summary of each rule and regulatory agenda to check the date of entry into force.

- Multi-parameter search, by keyword and filter
- Automatic alerts to quickly know if a rule has been published and amended
- Pre-Regulatory channel (regulatory drafts)

OPERATION

My Regulatory Update is a working area where you can save the most important documents and share them with your colleagues.

Each Update is summarized in English and can be added to your Favorites. Your searches can be saved and repeated over time, and also shared with your colleagues.

- Working area for you and your colleagues
- Direct access to the original texts (link or PDF)
- Newsletter in PDF and Excel formats

ACTION

Each Update enables you to **"Ask for a consultancy"** to receive the support of our regulatory experts. Thanks to this additional service, our worldwide network supports you in the assessment and consolidation of new regulations through the drafting of technical opinions.

- Ask for a consultancy
- A network of 50 worldwide experts

Regulatory Update meets the needs of a food and consumer goods producing and distributing companies.

New intuitive Dashboard

and a Support area (F.A.Q. and Video tutorials)

SIMPLE AND REPEATABLE SEARCHES

Multi-parameter search, by keyword and filter

REGULATORY AGENDA

A specific tool to know which rules will enter into force in a target period
