Safety HUD

MONITORING FOOD FRAUD & SAFETY ALERTS WORLDWIDE

The perfect tool to support risk assessment of your raw materials and products from all over the world

**Because you care
about** CONSUMERS' HEALTH

Safety HUD is intended to help food operators around the world to perform risk assessment on their **products and raw materials**, and to meet **international standard requirements** (e.g. BRC, IFS). This solution has been **designed by Mérieux NutriSciences** to meet the highest expectations in monitoring daily food fraud and safety alerts but also to give you a comprehensive understanding of it, with key facts, trends and analytical recommendations.

Since 1st May 2018, we have monitored about **90 official agencies in 55 countries**, as well as media sources, and European **RASFF data** since 1st January 2013.

With Safety HUD, never miss any event that may impact your food categories!

55 countries monitored

About 90 Agencies

Every day since 1st May 2018

All the features you need gathered in an easy-to-use tool!

Alerts

Stay up-to-date on food fraud and safety alerts
